The ethos behind our whole education aims to foster an atmosphere of appropriate behaviour, mutual understanding, respect and tolerance within all members of the school community. We aim to encourage self-discipline, to allow a positive, safe and happy community to be both stimulating and successful.

Everyone must follow the code whilst in school on outings with the school or when representing the school and pupils should also do so on their journey to and from school.

We treat each other with respect, courtesy and consideration.

We will be peaceful, thoughtful and positive to each other.

We will be mindful of the health, safety and the rights of others.

We will care for each other, our surroundings and each other’s belongings.
